Three Ways to Dye paper

Embossed Name art using chalk paint pens

You will need:

- Wool
- Paper
- PVA glue
- Foil
- Glue stick
- Chalk paint pens
- Felt or microfibre cloth

Method:

1. Fill a piece of paper with your name and frame with curly or zig zag designs
2. Trace your letters and designs using PVA glue (this works best if you have a nozzle attached to the glue bottle)
3. Working carefully while using wool, take pieces and lay them on top of the PVA glue lines. This can get messy very quickly! Wash your hands to avoid getting sticky
4. Allow glue to fully dry (overnight)
5. Using your glue stick, apply glue to the entire piece of paper and on the outline of the wool
6. Carefully place a piece of foil on top of your design and use a piece of felt or microfiber cloth to polish the foil on to the design
7. Optional- use a cotton tip to polish the round circles and edges
8. Using chalk pens, create designs onto your piece of art
9. Enjoy!
