HOW PLAYGROUP BENEFITS FAMILIES

Playgroup is a wonderful opportunity to meet other people in a similar situation. It gives you the chance to make new friends, learn from one another and develop a supportive local network for you and your family.

Playgroup offers you and your family:

- A place where parents and carers can support each other through sharing ideas, parenting experiences, concerns and information
- A place where families can build long-term friendships as their children grow and transition to school
- An affordable and regular opportunity to enjoy a shared outing

HOW PLAYGROUP BENEFITS YOUR CHILD

- Provides opportunities for creative, unstructured learning through play
- Builds attachment between adults and children as they play together and share time and experiences
- Helps children develop social skills as they learn to interact with others, take turns, share and make friends
- Provides experiences that enable them to manage stress and adapt to change
- Offers opportunities for children to explore, invent, reason and problem solve

WHAT IS PLAYGROUP?

Playgroup is one of the first, and most important, social networks for children and families.

Playgroup is a lightly structured, informal gathering where parents, other carers, babies and children up to school age come together in a relaxed and friendly environment to connect, play and learn.

Playgroups are generally held once a week for two hours usually in the morning at a variety of community venues. They may involve craft activities, indoor and outdoor play, music and morning tea.
